Value, Outcomes & Healthcare Economics

### Submission Details

- Abstracts must be submitted in English.
- Prior to preparing your abstract for electronic submission, please read these abstract preparation and submission guidelines.
- Do not include any author names in the body of the abstract, as these are blinded reviews.
- Only work that has not been previously published at the time of submission will be considered.
- Do not email files or mail hard copies to the meeting office.
- Abstract text should not exceed 500 words, excluding abstract title and authors.
- Figures can be uploaded.
- Disclosures for all co-authors must be filled out before abstracts are submitted.

## Presentation Policies

- Presenting authors must register for the conference for their paper or poster to be included. Authors of accepted abstracts will be notified by **March 4, 2021**.
- **NEW:** Presenters of accepted papers from Europe or Asia will be allowed to present at the podium via pre-recorded video, if in-person travel is not an option due to COVID-19.
- ISASS reserves the right to offer a poster presentation spot if podium presentation is not available.
- Presenters will receive an abstract speaker's kit, which will include non-exclusive license, a documentation of FDA status as well as templated slides. All tasks must be completed before presenting at ISASS21.
- No presenter may present more than two papers from the podium. If a presenter has more than two papers accepted, he /she must have a colleague who participated in the research present the additional papers.
- Commercial bias and company logos or trademarks may not appear in either abstracts or final presentations or posters. Employees of corporate interests are not allowed to present from the podium.
